The NRS Legacy

\$2,000, a Garage, and a Dream

I first fell in love with whitewater in the 1960s. As a business teacher, it was a natural step for me to combine my passion for paddling with my "day job": I could test some of my ideas about small businesses in the real world and go boating at the same time. In 1972 I started NRS with an initial \$2,000 investment. Thanks to lots of luck and some hard work, NRS grew into a thriving business.

Today, we're still putting into practice my original belief that a business enterprise can provide meaning and enjoyment in our lives, rather than just a way of making money. At NRS, our mission is to treat you, the customer, in the same way we like to be treated. In many ways the company feels like a family, and we hope that you, too get a bit of this feeling when doing business with us.

I've always been a budget boater, and NRS was founded to provide quality equipment without wiping out the wallet. We haven't lost that edge, although people sometimes ask why we don't charge more for our products. The answer is simple: we didn't get into this business to get rich or to satisfy investors — we're here because we love what we do, and because we love running rivers. You'll find our best efforts in your local paddling shop, as well as in this catalog.

See you on the water!

CORRECTION:

On p. 84 we mistakenly stated that the PETT Toilet system is the only system accepted by the BLM. Truth is, it's a great toilet and the only "disposable bag" system accepted by the BLM. Sorry for any inconvenience this may have caused.

NRS River Wing

Arguably the best shelter on the river. Rugged, waterproof nylon oxford tarp has factory-taped seams and is edged with polypropylene webbing. All corners are reinforced for durability. Sectional aluminum poles adjust to 6, 8 or 10 feet and are both lightweight and strong. Maximum coverage of 190 sq ft. See page 82 for more details.

2772 NRS River Wing **\$200.00**

Let there be light in your camp.

Princeton-Tec Scout

Four, lithium coin-cell batteries (2032, included) provide burn times of up to 40 hours. Two super-bright LEDs in this waterproof headlamp illuminate even the darkest campsite. Detachable webbing with built in clip. Five output modes.

Weight: 1.8 oz

2774 Scout **\$22.00**

Princeton-Tec Yukon

Switch between three super-bright LEDs that'll burn for 200+ hours or the incandescent xenon bulb which burns up to four hours. Three AA alkaline batteries (Three AA lithiums will prolong burn time). Waterproof.

Weight: 6 oz

2773 Yukon **\$38.95**

See the
Camp Filter
on p. 83

Katadyn Hiker

The most efficient microfilter you can buy—more water with less effort! This compact, low-maintenance water filter protects effectively against bacteria, protozoa and cysts. Output up to one quart per minute.

Weight: 11oz. **Height:** 6.5 inches.

2703 Katadyn Hiker **\$59.99**

NRS Mystery™ Shirt

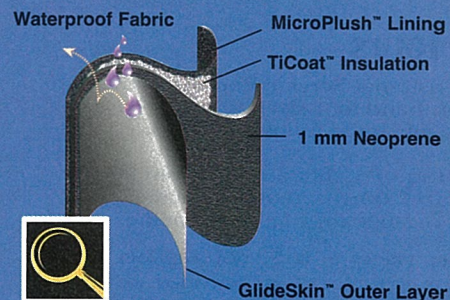

Total windproof protection for your core. For days when the Hydroskin shirt isn't quite enough, consider the Mystery. 1 mm neoprene with GlideSkin exterior sheds water to eliminate the chilling effect of moisture evaporation. TiCoat insulation keeps your body's heat where you want it: next to your body. With MicroPlush lining throughout, you can wear it against your skin, or over lightweight thermals.

NRS Boaters and Rafters Gloves

These lightweight gloves are ideal for summer river trips, when you need sun and blister protection plus grip and control. Amara® synthetic leather palm ensures you'll get multiple seasons of use. Cool Lycra® backing stretches for a perfect fit.

Sizes: XS-XXL (see sizing p. 15)

Color: black/pewter with gray palm

2430 NRS Boaters (3/4 finger) **\$22.95**

2425 NRS Rafters (full finger) **\$22.95**

Seal Skinz Gloves

Dry hands are warm hands. Seal Skinz gloves are constructed using a patented 3-layer fabric that prevents water from penetrating while allowing perspiration to escape. Each glove is pressure-tested to make sure there are no leaks. "Gripper Dots" on the palms add control and gripping power.

Sizes: S-XL (see sizing p. 15)

Color: black

2352 Seal Skinz Gloves **\$29.95**

Latex Boating Gloves

If you need to keep your hands completely dry, these gloves are the answer. Full Latex construction seals tight at the wrists to keep water out. Molded-in tread on the fingers and palm improve your grip.

NRS | Gloves

NRS Crew Gloves

Our best value in a basic paddling glove. Made of 0.5 mm DuPont neoprene laminated with nylon and a GripCote™ palm. We offer these in a range of sizes to fit just about anyone.

Sizes: 3XS-XXL

Color: black/pewter

2444 Crew Gloves \$17.95

NRS Rapid Gloves

Our 1.5 mm neoprene Rapid Gloves provide excellent blister protection and moderate warmth. Durable GripCote palm ensures a solid grip for improved paddling performance. Similar warmth as with the Hydroskin Gloves, but the thicker neoprene allows for better padding and protection. Perfect in late Spring and Fall.

Sizes: 3XS-XXL

Color: black/blue

2441 Rapid Gloves \$22.95

NRS Mambas™

Ideal for creeking or surfing, Mambas allow you to unroll

the long cuff for maximum warmth. Cuff snaps give you the option of a shorter, more accessible opening. 5 mm nylon-coated neoprene on the underside provides abrasion resistance, and raw neoprene on top prevents wind chill. TiCoat™ maximizes heat retention.

Sizes: One size fits all

Color: black

2445 Mambas \$34.95

NRS Hydroskin® Mambas

The ultimate lightweight pogie, ideal for sea kayaking. Made of our exclusive Hydroskin, these Mambas will keep your hands warm and protected from the wind. GlideSkin™ outer surface prevents evaporative cooling. Hook-and-loop strap allows you to roll them up on the paddle shaft when not in use.

Sizes: One size fits all

Color: black

2445.1 HS Mambas \$34.95

NRS Propulsion™

Bored with the same old surfing routine? Can't fit your breakdown paddle into your new boat? Solve both problems with NRS Propulsion Gloves. 3 mm neoprene lets you hand-paddle in the coldest conditions. Flexible plastic shims between your fingers keep the glove sturdy enough for a good "bite" in the water, yet still allow you to latch onto important things, like your skirt's grab loop.

Sizes: S-XXL

Color: blue/black

2446 Propulsion \$35.95

NRS Navigator™ Gloves

A perfect combination of warmth and dexterity.

2 mm neoprene back and palm allow for plenty of finger movement and provide even warmth. Full RawHide palm ensures total paddle and oar control with the best grip available. If you're looking for a glove that offers good protection without sacrificing your

feel for the paddle, these are perfect. They're lighter and more flexible than Naturals, Reactors, or Rawhide 3.5 gloves, but warmer and grippier than the Rapid and Paddlers gloves. Our latest RawHide material is so durable, these gloves will last multiple seasons for even the most gear-abusive paddler.

Sizes: XS-XXL

Color: black

2410 NRS Navigator Gloves \$26.95

NRS Hydroskin® Gloves

Enjoy extreme comfort and great grip with our exclusive Hydroskin Glove. PowerSpan outer layer offers unmatched flexibility for any paddle-sports activity. MicroPlush lining and TiCoat insulation make these gloves slightly warmer than Boaters, Rafters, or Crew Gloves, and more flexible than Navigators and other thicker models.

Sizes: XS-XXL

Color: black/gray

2406 NRS Hydroskin Gloves \$32.00

NRS Paddlers Gloves™

Professionals worldwide choose our Paddlers Gloves for the best combination of dexterity and protection. The back of the hand is 2 mm neoprene with 3 mm pads to protect your knuckles. The palm and fingers are constructed of rugged yet flexible synthetic leather. Super-tough patches of Aramid-fiber armor on key wear areas offer unmatched protection for active paddling, rowing and rope handling. Warmer than Hydroskin Gloves and not quite as warm as Navigators, Paddlers Gloves have the best palm protection we offer.

NRS Reactor™ Gloves

Reactors feature TiCoat insulation and soft MicroPlush lining, making them the warmest 3 mm glove available.

RawHide™ palm and pre-curved fingers ensure superior grip and total paddle and oar control. PowerSpan 4-way stretch fabric gives you increased finger mobility. GripCote on the backs of the fingers helps prevent wind chill and evaporative cooling, increasing warmth. Seams are glued and blind-stitched for durability.

NRS Toaster™ Mitts

Laugh off the cold. If you've never found a pair of gloves that really keep your hands warm, try these mittens. Toaster Mitts offer the warmth of Mambas with the protection of gloves. The 3.5 mm neoprene provides superior warmth, while the 2.5 mm RawHide palm gives you improved control and feel. Pre-curved for increased grip, but flexible enough not to limit your dexterity.

Sizes: S-XXL

NRS RawHide™ 3.5

Constructed of beefy 3.5 mm RawHide neoprene, warm TiCoat insulation and soft MicroPlush lining, this is our warmest glove, period. As on our other cold-weather gloves, the fingers are pre-curved to keep you more comfortable for the long haul. The grippy RawHide material keeps you in control of your paddle or oars and sheds water, reducing wind chill and evaporative cooling.

NRS Attack Shoe

You asked for the ultimate high-traction slip-on shoe, so we built it. The new HyperGrip™ rubber sole provides the best wet and dry traction available. Cushioned insole and mid-sole shim let you hike and portage comfortably over any terrain. Mid-cut upper protects your foot and ankle both in and out of your boat. MicroMesh™ allows water to drain while keeping sand and grit out. From put-in to take-out, NRS Attack Shoes will take you anywhere you want to go. Marking sole.

Let's face it: wet, bulky life jackets and wetsuits are a pain to haul around. Thankfully, the NRS PFD Bag makes it easy to transport and store your damp and difficult-to-carry gear. The top of the bag is the same 2-1/2", square-mesh netting as our Cargo Net so everything inside dries quickly. The bottom is 1000 denier Cordura® nylon for durability. Two sturdy handles and a quick-cinch drawcord opening allow you to pick up and go. Room enough for all your friends' gear, too.

Holds up to 18 PFDs.

Sizes: 40" W x 40" L x 30" H.

3094 PFD Bag \$99.95

The ABC's of PFDs:

NRS proudly offers a wide range of Coast Guard-approved PFD styles from leading manufacturers. If you plan to venture into the water, you'll find the right "Personal Flotation Device" here!

Style:

Look for these symbols denoting:

high flotation

or low profile

Red type denotes the flotation for each PFD. Most adults wearing a bathing suit weigh between 10 and 12 lbs. in the water. The more muscle you have, the more flotation you need. Higher flotation brings you to the surface faster and floats you higher in the water. The maximum flotation offered here is 28.5 lbs., available in the Extrasport Gorge PFD, seen on page 41.

Coast Guard Approved:

Type II - Near-Shore Buoyant Vest, used on inland calm waters.

Type III - Flotation Aide, comfortable for continuous wear and high-activity use on inland water.

Type V - Special Use Device. A label on the jacket specifies the limits of use. Example: rescue jackets.

The Word on the Water

A properly fitting life jacket is the single most important item in a boater's gear bag. Assure the proper fit at the time of purchase by double-checking your measurements against the sizing charts. Occasionally we receive reports that a jacket is running larger or smaller than indicated—ask our trained associates if there are any updates on the specific

jacket you're interested in.

Check the fit of your PFD routinely.

Every time you strap it on, adjust the fit as needed and check all fasteners and straps for wear — we don't want your jacket to float to the surface without you! Care for your PFD as if your life depends on it. Using 303 Protectant regularly in your cleaning solution will increase its longevity.

Gerber River Runner™ & River Shorty™ Knives

Most of the time you only need your knife to spread cream cheese on your bagel. But in an emergency, these knives are easy to pull from their sheaths, as well as comfortable and secure in the hand in a wet & cold environment. These mid-sized knives are a favorite among commercial river guides. Molded friction-release sheaths clip to a belt or the lash tab on your PFD. The River Shorty features a fully-serrated edge and a blunt tip to prevent accidents during a rescue. The Runner Runner incorporates a half-smooth, half-serrated blade and a pointy tip for puncturing a broached boat.

Colors: black, yellow **Sizes:** *Shorty:* 3" blade, 3.75" handle, 4 oz. *Runner:* 3.25" blade, 3.75" handle, 4 oz.

2763 River Shorty™ **\$38.00** | **2764** River Runner™ **\$38.00** (Available in black only)

Gerber Rescue/Sport Saw

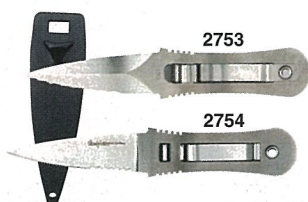

Whether you need to hack through the hull of a pinned boat, cut a strainer loose, or just need a saw blade around camp, this is the right tool for you. The folding lock-back blade is composed of tempered steel and the composite handle provides a firm grip.

Length: 6.5", 11.75" open

Weight: 4 oz.

2759 Saw **\$21.00**

2759.1 Sheath **\$ 4.00**

Gerber Clip Lock™ Knife

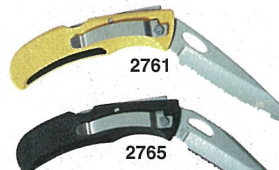

This slim-profile stainless-steel knife attaches flat against your PFD in a composite sheath with a secure clip. The Rivermaster has one straight and one serrated edge, while the Survivor has a single edge that is half-serrated.

Length: 3.5" blade, 4.5" handle,

Weight: 5 oz.

2753 Rivermaster **\$60.00**

2754 Survivor **\$50.00**

Gerber E-Z Rescue™ & E-Z Out™

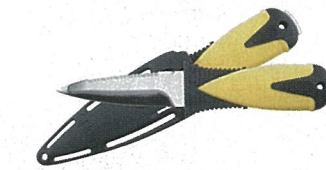

This compact knife features a lightweight composite handle, oval cutout on the blade to aid in single-handed opening, and a removable clip. E-Z Out combines a half-straight, half-serrated blade, while the E-Z Rescue has a fully-serrated blade with safety tip.

Length: 4.5" closed, 8" open

Weight: 3 oz.

2761 E-Z Rescue **\$41.50**

2765 E-Z Out **\$41.50**

Gerber Expedition™ River Knife

This knife's handle has the best grip on the market in wet conditions. It securely locks into a composite sheath, needing only the push of a button to release it. High-carbon stainless-steel double edge holds its integrity. Reinforced nylon handle is nearly indestructible. Rubber leg straps included.

Length: 3.25" blade, 5" handle,

Weight: 8 oz.

2757 Double Edge **\$54.00**

Weight: 1.8 oz.

2751 Mini Ascent II **\$55.00**

Benchmade River Rescue Knife

The River Rescue knife locks securely into the sheath with a thumb-toggle lock-and-release system, for a higher standard in single-handed functionality. The sheath of this fixed blade knife clips securely to a PFD. Scaled handle for a secure grip. Hardened stainless-steel blade.

Length: 3.23" blade, 4.3" handle

Weight: 4 oz.

2750 River Rescue **\$99.95**

Benchmade Rescue Hook

This extremely sharp cutting tool is used by rescue professionals to cut seatbelts and webbing in rescue extractions, and to free victims from under-water snags, monofilament line, and nets. Molded plastic sheath included.

Length: 2.9"

Weight: 1.2 oz.

2749 Rescue Hook **\$35.00**

"The NRS Guardian Pro is my preferred rescue bag for trip leading and Class V river running. The unique design allows you to zip your throw bag inside, keeping it on your hip. I have seen too many dangerous situations that could have been resolved had a person not left their throw bag in their boat."

—David Hughes, President/Freestyle Coach of Huge Experiences

The Word on the Water

Throw bags are like cheap life insurance – always boat with a rescue bag. The throw bag you carry protects the safety of those boating around you. Conversely, the throw bags other people carry enhance your safety. Encourage those you boat with to always carry one – one day they may be throwing it to you.

Improve your rescue skills: see p. 81 for comprehensive books and videos.

Knots reduce a rope's tensile strength. For this reason, we make no claims regarding the strength of the rope in a rescue bag. Maximum loads indicated are for the unknotted rope alone.

Guardian Rescue Bags

Designed for the professional guide, **Guardians** clip securely around your waist with an adjustable belt and loops for carabiners. All Guardian systems come with a quick-release waist harness and throw bag. **Raft models** include a flip line.

NRS Rescue Bags

An absolute necessity on the water. Made of highly visible and durable Cordura®, NRS throw bags quickly secure to D-rings, boat frames or canoe thwarts with quick-release 1" straps. Internal flotation and floating rescue rope keep our Rescue Bags on top of the water, while polyethylene-sheathed grab loops make for easy grasping. Barrel-lock drawstring closure keeps the rope securely stowed between uses. See Rope page 45.

NRS "cats" are designed for extraordinary performance, agility and stability, whether you're transporting passengers and gear or sport-boating. Precisely sized, continuous-curve tubes enhance capacity, ride and maneuverability in all models. Extended wear patches allow for longer frames. Heavy-duty construction, safety engineering and our standard five-year full warranty make these cats unbeatable. As a safety measure, every new NRS cataract tube includes our three-chamber safety system. This divides tubes into three separate chambers, providing an extra margin of safety.

Over the past decade cataracts have exploded onto the whitewater scene. AIRE has led the charge by offering you more cataract models than any other manufacturer. Whether you're looking for optimum speed and performance or maximum cargo capacity, AIRE has a cataract that will do the trick.

AIRE's AIRECELL system continues to be their sound solution to safe, affordable and durable inflatables. AIRE sews or welds all seams and attachments. The AIREcell system prevents the dangers inherent in a sudden puncture and makes repairs much easier. AIRE offers a 10-year warranty and no-fault repair policy. Just send your "AIREcraft" back to AIRE and they will fix it – FREE!

NRS Frames

Quality Guaranteed

- Lifetime warranty
- 6061 T-6 anodized aluminum pipe has a high strength-to-weight ratio.
- Cast aluminum LoPro™ fittings
- Stainless steel "coined" U-bolts
- Cast aluminum oarlock stands
- Designed to fit any raft
- Completely adjustable for any rower
- Customizable to different configurations

Fitting a frame:

Your frame should be as wide or wider than your boat's center-to-center measurement. Determine this measurement by taking the width of your boat and subtracting the diameter of one main tube: $C = W - D$ (where Center = raft Width minus tube Diameter). If the width of our frame doesn't match your numbers exactly, be sure to order a frame slightly wider than your center-to-center measurement.

The versatility of our NRS frames is virtually unlimited. Let's say you start out small with a Bighorn I. Later, you find that you want more capacity. Add optional crossbars, and you have a gear-toting Bighorn II. Add a casting platform and a thighbar for fishing slack waters, or convert to a cat frame by adding Retro Drop Bars. The NRS frame bolts together to form a solid and stable platform. You get

the strength of a one-piece frame, yet retain the ability to break it down into small, easily portable units. Our frames have evolved over the years as a result of intensive experimenting, thousands of hours on rivers, and input from customers like you. Sleek and simple, NRS frames are maintenance-free and won't deteriorate or corrode over time.

NRS Oar Mount

Cast of 356 aluminum alloy and shaped for tremendous strength and uncompromising stiffness, NRS Oar Mounts will hold up for a very long time. They're the most versatile oar mount around. You can adjust their working height by rotating them around the circumference of the rails.

- 1214 6" Mount \$69.95/pr.
1214.5 8" Mount \$88.95/pr.

LoPro™ Fitting

Cast of 356 aluminum alloy, these fittings are designed to handle the demands of big-water boating. The precision-machined shank fits snugly inside our aluminum pipe. The saddle, coupled with our stainless steel U-bolt, creates a connection that will hold firmly for a lifetime of boating. LoPro includes U-bolt. (pat. #d431000)

- 1215 LoPro™ \$17.95
1216 U-Bolt \$ 2.50
1211.8 Wrench \$ 4.50

Padded Raft Seats

Constructed with the same pillow-soft foam used in tractor seats. The High Back provides added support, and drain holes keep pools from collecting on your seat. The Action Seat, very comfortable in its own right, rotates 360 degrees for unlimited casting angles.

- 1222 Standard \$59.95
1223 High Back \$74.95
1224 Drain Hole \$89.95
1219 Action Seat \$45.00

NRS Cargo Net

Our cargo net is one of the most versatile rafting accessories on the river. It can be secured over the top of your gear to keep it in the boat, or hung between two crossbars to create a cradle for loose gear. Built with a border of 2" webbing for strength and strap-on points for securing miscellaneous gear. Cargo nets come standard with nine 4' straps, but are also available without. (Shown in picture above.)

Sizes: Small; 60" x 80" Large; 70" x 90"

1802 S Small Net with straps	\$60.00
1802 L Large Net with straps	\$65.00

Cargo Platforms

If you have a boat with a standard floor, the cargo platform is an excellent component to help keep your gear drier. Heavyweight mesh allows water to drain quickly and durable webbing beneath the platform provides strength to support the heaviest loads.

Sizes: S, M, L, XL

1805 S For boats up to 11' 6" long	\$35.00
1805 M For boats 11' 6" - 13' 6" long	\$40.00

1805 XL For boats 15' 6" - 18' long	\$50.00

Aluminum Drybox

The most secure dry storage available. High-grade aluminum, continuous-steel lid hinge and tension-adjustable latches encase your gear in a protective hard shell. See p. 88.

3070 Aluminum Drybox \$299.00

Cooler Pads

Turn that hard cooler or drybox into comfortable seating. Cushioned seating for any cooler or drybox can be found on p. 80.

NRS Retro Cat Frame

Good ideas always come back around. Our Retro Cat Frame has no welds and can break down into even smaller bundles than our other cat frames. Retro frames are simpler, lighter and have higher floor platforms than our standard yoke cat frames. Now you can have any of our cat frames built using the Retro option. Just ask your CSR. The lower side rail length is fixed, but you can position the rails to attach to any crossbar.

"Last summer I spent two weeks on rivers rowing a Kodiak cat outfitted with a Retro frame, and I really loved the way the big rig handled. See the new Kodiak on page 52."

The Unbeatable Tie-Down Strap

Strongest Buckle

The NRS buckle is the strongest and most secure buckle in the industry. Center-mounted, stainless-steel springs protect the webbing from abrasion and enable the buckle to bite harder and more evenly across the entire width of the strap. At greater than 1900 lbs. tensile strength, our buckle is more than twice as strong as other leading buckles.

Loop Straps

Strongest Webbing

We start with 1" high-tensile polypropylene webbing custom-made to 1500 lbs. tensile strength. All webbing receives a bath in a proprietary solution to guard against UV degradation. Each strap's length (in feet) is woven into the webbing for quick and easy identification.

Strongest Strap

The finest materials available and NRS design make our straps unbeatable. Don't waste your money on lesser straps. Order your NRS Straps today.

NRS HD Strap

Since we introduced Heavy-Duty Straps to boaters over 20 years ago, they've been used for virtually every hold-down application imaginable. Whether you're attaching your boat to your vehicle or your frame to your boat, NRS Straps won't let you down. You can never have too many straps, and ours come in nine different lengths each with a handy name tag.

NRS 5" Barrel Pump

Commercial outfitters swear that NRS Barrel pumps are built to last, get wet, and get used. Our favorite, the NRS Barrel pump, combines a wide base for sure footing while pumping, large-capacity dual-pumping action, plus an intake/deflate valve. This pump will allow you to inflate a raft to 2 PSI from any angle. The 6.5' hose wraps around the webbing carry handle allowing storage for the 2.5' high / 5" diameter pump on your raft in order to use it as a top-off pump on the water. 5-year warranty.

NRS Open Oarlocks

The finest whitewater open oarlock available! Superston oarlocks are constructed for the rigors of big whitewater. Made of a strong bronze alloy to assure strength and shape. Standard oarlocks are made of recycled bronze alloy ship screws, and built for the recreational boater. 5/8" diameter, 3-1/2"-long shaft is precision-turned and drilled for the included split ring. The horn opening is 1-5/8" with a 2-3/8" inside diameter. Stainless Springs reduce oarlock play and noise. Lynchpin keepers are a finger-friendly alternative to split rings.

1407	Standard Oarlocks	\$23.00/pr.
1407.1	Standard Oarlock	\$11.50/ea.
1408	Superston™ Oarlocks	\$40.00/pr.

1423	Oarlock Stands	\$44.95/pr.
------	----------------	-------------

NRS Pins and Clips

When you want your oars held firmly in the vertical position – even in the biggest whitewater, you'll need pins and clips. NRS heavy-duty steel pins are threaded for the steel/nylon locknut. Molded rubber safety bumper on top prevents injury. Replaceable PVC bushings protect pin and clip from wear. Powdered coated steel clip attach to the oar with two heavy-duty stainless steel hose clamps. Oar stirrups are recommended to prevent oars from getting away during tough maneuvers. Don't forget your spare oar clip.

"I've never found another oar with the response and feel of a Cataract. They've helped me out of more than a few sticky situations."
—Josh "JD" Davis, Wholesale Account Manager.

FINDING THE RIGHT OARS

While oar length is largely a matter of personal preference, we can help you wade through some of the specifications you should consider, including boat type and size, gear and passenger load, water classification, skill, and your preferences as the oarsperson. Call us and we'll help you choose the oar that's right for you. You may want to consider oar extenders to make your overall package more flexible.

Cataract Blades

Whether you are fishing or whitewater rafting, these buoyant blades are a welcome addition. Structural polyurethane coating around a lightweight composite core. The 6 1/4" Original Cataract blade has an optional tip protector for extra durability. 7" Magnum blade incorporates the strength of the original with a teardrop design—wider tip and thinner cross-section enters the water quicker. **Color:** black

Cataract Oar Grips

Replace worn or torn oar grips. Installation tip: Use hair spray to lubricate the inside of the grips, then just slide them on!

- 1397.1 Oar Grip **\$3.95/ea.**

Counterweights

Offset the weight of the oar outside your oarlocks with these 4lb steel sleeves. Slide over the end of the oar and secure with the three included screws.

- 1390 Weights **\$49.95/pr.**

Cataract Oar Shafts

Whether you're staring down the boil and fury of a big hydraulic or peacefully catching the eddies along a wide meandering river, Cataract oars will reduce fatigue. The reason: composite shafts flex and rebound like wood without the weight or need for maintenance. These shafts effectively translate muscle energy into stroke power, giving you the ultimate in oar responsiveness. SGG models are ideal for most water conditions and standard boat sizes. SGX models, made with a stiffer composite, are intended for boaters who use longer length oars – 10' and 11'. Shaft and blades are interchangeable with Carlisle models. **Shaft length is measured with blade. Blade sold separately.**

Carlisle Heavy-Duty Oar Shaft

Carlisle's tough, maintenance-free, quality tempered-aluminum shafts are sheathed in colorful, abrasion-resistant polyethylene tubing. Molded plastic handles are made more comfortable with foam rubber grips.

Removable blades enable easy storage and transport. 7' and 7-1/2' Carlisle Oars are heavy-duty rafting models, with a 1-7/8" diameter aluminum shaft constructed from thick-walled tubing. 8' and longer oars have a reinforced inner shaft for maximum strength. **Colors:** yellow, blue, red

NRS Canoe Flotation

You might think there's not much room for improvement in a simple thing like a displacement float bag. But we've studied flotation intensively, and have addressed problems other designers have ignored. Our float bags fill the boat better and displace more water. Our new material is more durable, and our fill and dump valves are quicker. See p. 74 for complete offerings.

K-Bomb

Stay dry! It's that simple. The K-Bomb features a half-bomb rand that lies deep in the coaming of the boat. Aramid-fiber neoprene reinforcement is built directly into the side seams, and there is an enhanced Aramid-fiber deck along the paddle-shaft rest area. Made entirely of $\frac{3}{16}$ " Rubatex® neoprene with a $\frac{1}{8}$ " neoprene tunnel for waterproofing without bulk.

L	33" - 37"
XL	37" - 41"

NRS Basic KILT™

The perfect startup skirt. This simplified version of the Rubber Rand offers everything you need as a beginner or as someone looking for an economical buy. Quality construction, 3 mm neoprene throughout for toughness, a reinforced release strap that ensures reliable escapes, and a rubber rand that adheres to the rim of your kayak for a bone-dry seal. The difference between the Basic and the Rubber Rand is the absence of the RimGuard coating and underside reinforcement. The result is a stretchy skirt that is easy to put on.

2017 B	Basic Big Deck	\$90.00
2017 X	Basic Monster	\$90.00

NRS Shock Cord KILT™

The beauty of the Shock Cord is that it provides an easier fit than molded rubber-rand skirt varieties – thanks to the forgiving stretch of the bungee cord. You'll also notice a tighter seal as the shock cord tucks under the cockpit rim, and plenty of durability thanks to 3 mm construction and a RimGuard wrap along the edges to thwart abrasion. The Shock Cord is also available in an all-nylon version – great for touring and learning.

Waist Sizes: S-XL **Color:** black/gray

NRS Rubber Rand KILT™

Far and away our best-seller, delivering all of the attributes we consider to be crucial in a top-of-the-line skirt. Tough high-density 3 mm neoprene is bonded to an extruded rubber rand developed to closely match the rim profile of most kayaks. The result is an incredibly dry seal and a skirt that goes on easily. We then adhere RimGuard, a plastisol coating, to the edges of the Kilt's surface to protect against abrasion, and a layer of extra neoprene to the underside's heavy wear areas. The reinforced release strap is double-tacked to the skirt, not the rand, preventing rand/skirt separation. With all of these elements we figure this skirt is the best buy on the market. Wear your Kilt proudly!

Watershed Futa Kayak Sto Float

Float bags with dry storage are a simple concept, but leave it to Watershed to pull it off in amazing style. Intended primarily for kayak sterns, the Futa tapers to fit most boats and the ZipDry closure ensures your contents are dry at the takeout. Three external lash points and four deck attachment points keep the bag in place, and over-the-top compression straps allow the bag to be sized down to fit contents and the stern of the boat.

Tour de Jour™

Bomber Gear makes a fine contribution to the touring field with the Tour de Jour. The coaming is reinforced with Hypalon® for years of abuse; the fabric is a breathable, 3-ply nylon for comfort when temperatures rise, and all seams are taped to keep water out. Additional features include a tunnel pocket, an internal deck bellow to keep water from pooling on the deck surface, and a Velcro®-adjustable neoprene waistband with removable shoulder suspenders for a snug fit. One waist size fits all, and the bungee cord can adjust to fit most cockpits. Give us a call for deck sizing.

New **NRS River Wing**
pictured above & on p. 84

Spreading over your party like the wings of a river goddess . . . Okay, that's going a bit far. But the River Wing is a great shelter for those sunny (and rainy) days on the river, in the campground, or for backyard get-togethers. The wing is a beefy, waterproof nylon oxford with factory taped seams that will withstand years of exposure to the elements. Heavy-gauge tie-down cord and 6 steel tent stakes extend the wing to its maximum coverage of a 190 sq. ft. Break-down aluminum poles adjust to 6, 8 or 10' allowing you to customize the shelter's height. Transportation is easy with a nylon carry bag and internal accessory bags. Also includes 6 plastic sand stakes.

Igloo™ Coolers

Igloo makes the best marine ice chests in the business—period. Stainless-steel hardware throughout, and tough back-up plates on handles, hinges and latches. Extra ultraviolet inhibitors to retard sun damage. Drain plugs are threaded for an ordinary garden hose on the larger ice chests. Refrigerator-quality liner resists odors and stains, and the one-piece lid is strong enough to support 300 lbs. Most important, Ultratherm® insulation used in the body and lid provides the best cold retention available. Rugged construction for heavy loads. Surelock 95° hinges, child-proof safety latches and a fish-keeper scale round out the list of features. 5-Year Warranty. (Seat Pads p. 80) *Upsize shipping charges apply.*

PETT Toilet System

This portable, self-contained toilet system is approved for multi-day river use in every state. The rugged plastic case measures only 19" x 14" x 5" when folded. Three legs fold out from the bottom to provide a strong, stable base that is standard height and size. The inner WAG (Waste Alleviation & Gelling) bag is held in place securely and can be removed/replaced in a sanitary manner. The degradable WAG bag contains a bioactive non-toxic gelling powder that encapsulates liquid and solid waste, neutralizes odors, initiates and accelerates decomposition. Full bags can simply be put into the provided zip-close, puncture-resistant containment bag, and thrown in any normal trash container. These bags comply with federal standards for disposal in landfills and will degrade along with gel and waste in six to eight months. PETT Toilet includes 3 WAG Bags. The complete kit comes with Toilet, PUP Tent, 15 WAG Bags and a convenient carry bag.

The Word on the Water

"The York Pack 80 gets my vote for transporting personal gear on long trips."

—Bill Parks

York Pack

Organize your trip, and simplify life on the river. Boxes make for the most convenient storage, and the York Pack not only stores food, equipment or clothes, but can also be used as a handy low-rise table. Flip the top over and you have a rim or lip for your "table." York Pack's 10 tie-down points include three built-in handles for easy transport. Two 1" polypropylene straps secure the lid, and optional padded shoulder straps make this a versatile pack for the river. Also perfect for storing items in your trunk. The **York Pack 200** carries a lot more gear and has all the same features as the 80, but lacks the handles. *Oversize charges apply.*

Keep your gear dry even when submerged! Easy-to-use ZipDry® Seal presses shut like a freezer bag. 420-denier nylon pack cloth is double-coated with embossed polyurethane for abrasion resistance and overall strength. All seams are radio frequency-welded and guaranteed to be free of leaks. Even the smallest details are top quality: Duraflex® side-release buckles and D-rings are combined with extreme-duty nylon webbing. Wide mouth for easy access. If you transport fragile equipment in your duffel, a liner is a must: constructed of a Cordura outer shell, minicell foam cushioning, and an interior fleece lining, will reliably protect your gear.

NRS Dry Bags: New features

To Achieve a Watertight Seal:

- Fill the bag at least half and no more than 3/4 full.
- Push down on the bag to expel any excess air.
- Fold (do not roll) the top of the bag around the folding band. Continue to fold tightly, smoothing out any wrinkles, at least three more times.
- Snap the buckles together to create a tight seal and a handy carrying handle.
- For bags with side buckles, pull down tightly on buckles and then tightly fasten strap(s) over the top.

.35 mm Vinyl-topped
for a better seal

Folding band creates a
firm bar to help guide the
folds, making proper clo-
sure easier

NRS K•O•S•S Bag™

(Kitchen and Other Strange Stuff)

Everything, including the kitchen sink, fits easily into this behemoth of a dry bag. Traditional roll-down closure is enclosed in an overlapping cover that fastens down with quick-release buckles for unparalleled splash protection. Foam handles make lugging heavier gear much easier on your digits. The K.O.S.S. Bag also makes a great place for that trip member who keeps complaining about getting wet!

Colors: assorted, please let us choose.

Size: 22" L x 18" W x 23" H

2921 K•O•S•S \$99.95

NRS System 5™ Bag

Packing for multi-day trips requires a system. The System 5 bag helps you put it all together with 5 spacious cubic feet. 24 oz PVC/polyester body and 34 oz PVC/polyester bottom make this bag the toughest on the river.

Colors: assorted, please let us choose.

NRS Ricksack™

The Ricksack series provides the advantage of a see-through bag with the added durability of a thread-reinforced PVC body. In fact, we consider this the most durable transparent bag on the market. D-rings on the roll-down closure form a handy tie-off point, and the X-Long has a side-carry handle for easy transport.

Color: transparent

Sizes: XS-L, XL (Xtra-Long)

2940 XS	6.5" Dia. x 12.5" H	\$12.50
2940 S	7.5" Dia x 13" H	\$14.95
2940 M	9.5" Dia x 20" H	\$20.50
2940 L	11.5" Dia x 23" H	\$27.00
2940 XL	9.5" Dia x 33" H	\$27.00

NRS Dri-Stow™

Avoid the frustration of dry-bag "diving" with a transparent Dri-Stow. Constructed with the occasional boater in mind, these bags are made of a .50 mm clear vinyl that is tough, yet very economical. Great for storing items you need during a day on the river. Fold-down closure doubles as convenient carry handle.

Color: transparent

Sizes: XS-L, XL (Xtra-Long)

2939 XS	6" Dia. x 12.5" H	\$ 9.00	2939 S	7.5" Dia. x 13" H	\$11.00

2939 XL	9.5" Dia. x 33" H	\$19.00			

NRS Tuff Sack™

From extra-small to extra-long, our Tuff Sacks run the gamut of dry bag styles and uses. Whether you want to pack a handful of gorp or a tent, we have a bag to fit. Unlike less expensive, lower-quality bags, our round-bottom dry bags have a super-tough, 34 oz. PVC/polyester bottom, and a heavy 1000-denier, 18 oz. body. A fold-down waterproof closure snaps back on itself to create a handy carry handle that will also snap around a boat frame or D-ring. Includes tie-down D-ring on closure. XS is great for sunscreen, keys and snacks. M or L bags are ideal for sleeping bags and clothes. X-Long (XL) is perfect for a Roll-a-Table or tent and features a side-carry handle for easy transport.

Colors: red, blue, green

Sizes: XS-XX, XL (Xtra-Long)

2945 XS	6.5" Dia. x 12.5" H	\$13.75	2945 S	7.5" Dia. x 13" H	\$16.95

2945 XX	12.5" Dia. x 26" H	\$28.50	2945 XL	9.5" Dia. x 33" H	\$28.50

NRS Sea-Stow Bag™

Sea-Stows are especially good for kayaking. 210 denier urethane-coated nylon keeps the weight of this bag to a minimum. This rugged material slides easily in and out of fiberglass and polyethylene kayaks. Sea-Stows are available with round bottoms for more volume and easier stuffing, or grommeted corners for tie-down. Both models have fold-down waterproof closures that double as carry handles. Includes handy D-ring.

Color: red

NRS Rec-Deck Spray Skirt

We've developed a quality option for folks looking for a skirt to fit recreational kayaks. The Rec-Deck features all the same materials and workmanship as our other skirts; the only difference is the size. The deck and tunnel are crafted of durable, urethane-coated 210-denier nylon oxford with factory-taped seams. The deck fits onto your boat with an adjustable shock-cord bungee in a GripCote™ sleeve that adheres tightly to the cockpit rim. Adjustable waist bungee on the tunnel ensures a universal fit.

Deck Sizes: S (49" L), L (55" L)

Color: blue/black

2064 Rec-Deck Spray Skirt \$50.00

NRS Retro Cat Frame

Save weight and save money!

Our Retro Cat Frame has no welds, so it breaks down into even smaller bundles and is less expensive than our other cat frames. Retro frames are also simpler and lighter with higher floor platforms. Now you can have any of the cat frames on p. 61 built using the Retro option; just ask your CSR. The lower side-rail length is fixed, but you can position the rails to attach to any crossbar.

Lengths: 107", 120"

Widths: 66" or 72" W

Weights: 120" weighs 122 lbs.

Oversize shipping charges apply.
