2016 APPAREL GUIDE

LET'S ROLL

We've survived another winter. Some would even say thrived. We chased powder turns and steelhead, stayed warm with dark beers, bright fires and memories of last season's fun. Now it's time to plan the next round of adventures. We've designed our 2016 apparel to help create the memories that will stoke the fires come another November. Pieces work alone and together to adapt to changing conditions, multiple activities and the demands of wild days outdoors. So stuff the duffel, rally the crew, and let's go.

H2CORE SILKWEIGHT

The foundation of warm-weather layering, H2Core Silkweight keeps you cool, sunburn free and comfortable for paddling. It's quick drying, crazy breathable and designed for friction-free paddling. Wear it alone on hot days or as a base layer in cooler weather. Updated for 2016 with a lighter weight, more breathable technical fabric and new styling. UPF 20+ [Imported]

CRUSH

We wanted a shoe we could wear day in, day out, on and off the water. A shoe that the off-duty guide/safety boater/instructor/bartender sleeping on our couch would covet. It had to feel as good as it looked and perform as well as it felt—in the boat, on the SUP board, around camp or at the pub. We made the upper breathable, quick drying and tough enough to last a nonstop season. We gave it a crushable heel and tuned the interior for barefoot comfort. Then we chose the stickiest rubber we could find, siped it for even better wet traction, and stamped our Idaho soul onto the sole. [Imported]
