

HALF RIG ROD SLEEVE INSTRUCTIONS

STEP 1

Breakdown rod into 2 equal sections and align parallel with the tip of the rod positioned at the reel end.

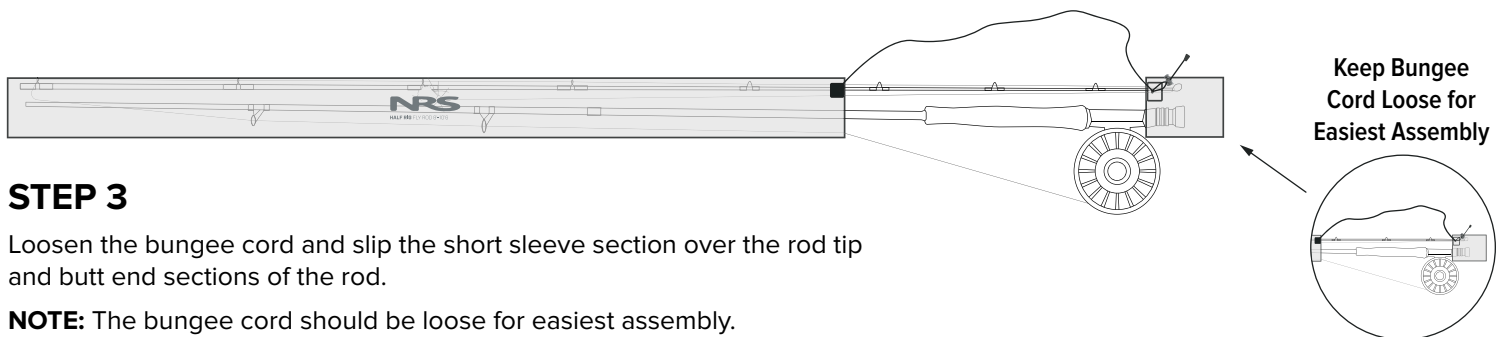

NOTE: Secure the hook on a rod eyelet and reel in excess line.

STEP 2

Slip rod sections into long sleeve leaving the reel and rod tip exposed.

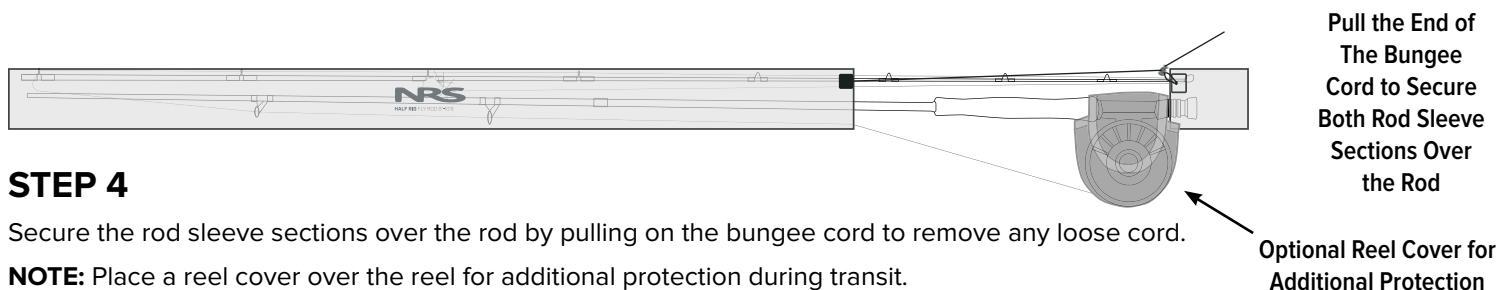

NOTE: The rod tip should NOT extend past the butt end section of the rod where the reel is seated.

STEP 3

Loosen the bungee cord and slip the short sleeve section over the rod tip and butt end sections of the rod.

NOTE: The bungee cord should be loose for easiest assembly.

STEP 4

Secure the rod sleeve sections over the rod by pulling on the bungee cord to remove any loose cord.

NOTE: Place a reel cover over the reel for additional protection during transit.
