

The background of the entire page is a photograph of two rescue workers in a forest. One worker is rappelling down a dark, craggy rock face, wearing a red jacket, black pants, and a yellow helmet. A bright green rope is attached to their harness and extends upwards out of the frame. Another worker is in the water at the base of the rock, also wearing a red jacket and a yellow helmet, looking up at the rappelling worker. The scene is set in a dense forest with tall trees and sunlight filtering through the leaves.

DRY BAGS & STORAGE

BILL'S BAG

There's no such thing as overkill when it comes to keeping your clothes and gear dry on the job. The legendary Bill's Bag features virtually indestructible aluminum hardware and a comfortable, removable backpack harness—and we build it with our super tough, and more eco-friendly, TobaTex™ material. The StormStrip™ closure system provides a confident seal and allows for easy top-loading access. The 110L is expandable for over 6700 cubic in of storage capacity but can be cinched down with four compression straps to compact and stabilize gear. When dryness is essential, the pros look to the utility of the NRS Bill's Bag.

INFLATABLE RESCUE BOARD

Lightweight, rigid and constructed for maximum durability, the Rescue Board is designed to meet the most demanding needs of water rescue professionals. Drop-stitch construction allows the board to be inflated to 20 psi, rivaling a foam or composite board in rigidity but easily folds for compact transport and storage. The textured deck pad and two padded handles help the rescuer maintain control of the board, while four additional handles on the sides offer target support.

Dimensions: 57"L x 25"W x 4"T

86094.01 | \$495.00

- a** Highly-visible color and large "RESCUE" lettering for improved visibility
- b** EVA grooved and textured deck pad plus two padded handles help the rescuer maintain board control
- c** Pressure Relief Valve engages at 20 psi, protecting the board from damage caused by over-inflation
- d** Two reinforced stainless D-rings on the sides of the bow are built to handle the strain of towing and lowering

CARLSON RIVER BOARD

Reliable foam construction won't absorb water, stands up to abuse, and has a slick and smooth bottom for added performance. Two sets of handles for extra hold locations and a neon green bottom for high visibility. Provides 165 lbs. of flotation.

Dimensions: 56"L x 24"W x 4"T

86150.01 | \$525.00

UNIVERSAL SWIM FINS

Designed to meet the demands of swiftwater rescue professionals, these rigid fins fit over your river boots – just step in, click in the heel strap and you're ready to go.

86090.01 | 15'5"L x 49"W | 12-9" diminishing tube dia. | kick bow/stern: 34" | **\$2,995**

- a** Open bow and stern give rescuers better access for pulling a target onboard
- b** Textured EVA adds durability while providing a comfortable working surface
- c** Bright colors and logos stand out on the water and alert casualties and the public to your mission
- d** Padded carry handles for ease of transport are quickly identifiable with reflective material
- e** 1" D-rings along the sides are connected with grab line for rescuer and victim handholds

Three heavy-duty 2" D-rings on each end for towing and lifting and four side and two end carry handles are padded for ease of transport and quickly identifiable with reflective material.

Rescuers can grab any of the 26 interior handles in rough water or use them to attach gear or secure targets. 6 exterior handles.

An armored underside with multiple fabric layers resists the abrasion and damage from water obstacles, ice and crusted snow. Tubes feature durable directional runners/rubstrake on the bottom.

Elevated floor position makes for easier maneuverability and more nimble/kayak-like paddling characteristics.

Base boat package includes boat bag and paddles.
